Research Fields

Primary: Experimental and Behavioral Economics

Secondary: Information and Uncertainty; Agricultural, Environmental, and Consumer Economics; Economics of Education

Topics: Learning, belief updating, and information acquisition under risk • Financial education • Nature exposure, cognitive load, and strategic thinking • Food choice and consumer behavior

Education

Ph.D. in Economics
University of California Santa Barbara (USA) *2019-2025*
Dissertation: Three Studies in Experimental Economics, Committee: Daniel Martin (co-chair), Gary Charness (co-chair in memoriam) Erik Eyster and Ignacio Esponda.

M.Sc. in Economics
Centro de Investigación y Docencia Económicas (Mexico City) *2015-2017*
Thesis: "Quantal Response Equilibrium in a Citizen-Candidate Experiment", Committee: Alexander Elbittar (chair), Hernan Bejarano and Luz Marina Arias

Specialty in Applied Statistics
Universidad Nacional Autónoma de Mexico (Mexico City) *2013- 2014*
Instituto de Investigaciones en Matemáticas Aplicadas y en Sistemas

Bachelor of Psychology (with distinction)
Universidad Nacional Autónoma de Mexico, Facultad de Psicología (Mexico City) *2008-2013*
Thesis: "La Teoría del Prospecto en la Predicción de Estrategias Mixtas en un juego 2x2", Committee: Arturo Bouzas (director), Oscar Zamora Arevalo (reviewer), Florente Lopez Rodriguez, German Palafox and Oscar Vladimir Orduna Trujillo.

Job Market Paper

Differing Priors and Information Acquisition When Others Make the Decision
Job Market Paper [PDF]
Does it matter who acts on information you buy? In a lab experiment, I find that when priors differ, people value information more when they make the decision themselves. This control premium is driven by non-Bayesian updating projected onto others.

Academic Positions

Postdoctoral Researcher
Department of Agricultural Economics, Texas A&M AgriLife Research *Spring 2025–Present*
Human Behavior Laboratory, Supervisor: Marco A. Palma. Incentivized laboratory and field experiments with eye tracking and galvanic skin response • Nature exposure, cognitive performance, and strategic thinking (Plants, Nature and Health Initiative; field experiment at the Texas A&M Research Park) • Healthy food choices and cognitive load in real-effort tasks • Grant proposal to the Horticultural Research Institute (submitted)
